KWHotel Features: Search for hotels based on their rate and availability Search for guests based on their preferences and their payment and availability status Manage bookings, calendar, guests, rooms, payment and invoicing information Review, modify and track all reservations and invoices Provide an easy way to integrate with existing systems List and track vacant and rented rooms Change availability and inform guests Alerts and notifications to help you take appropriate actions Manage and track sales, collections and other tasks Create and manage tax rates and cost-saving calculations Payments and invoices with the option of direct or bank transfers Guest and room status information Filter and sort hotel inventory Manage data and store it securely Take screenshots and screen captures Import and export data to CSV and PDF formats Export data to Excel for further analysis Get support through a knowledge base and live chat KWHotel Licensing: KWHotel is the result of collaboration between several experts from the hotel industry, and the development of the KWHotel software was made possible with the support of the European Union. More information: novel mutation in the gene encoding the subunit 2 of the mitochondrial complex I in a patient with a Leigh-like syndrome. The authors describe a novel mutation of the gene encoding the nuclear-encoded subunit 2 of the mitochondrial complex I of NADH: ubiquinone oxidoreductase (NDUFS2) in a patient with a Leigh-like syndrome (LLS), who presented with a disease onset at the age of 11 months. The patient showed psychomotor retardation, optic atrophy, central hypoventilation, fatigability, hypotonia, difficulty in arousal, and dystonia during sleep. In the frontal region, lesions were found on both the cortex and the basal ganglia. MRI revealed extensive lesions in the subcortical white matter, the periventricular region and the brainstem. The patient showed high lact

KWHotel

KWHotel is a booking tool designed to help hotel managers and owners keep track of all their hotel guests.
