## Fx Agency Advisor 2

1. . . 5. The recovery should be at least a double-bottom pattern, and if the recovery takes place right after a large-down move..

Please note that the purpose of this exercise is to show you the method. the risk/reward trade in each agency security. the risk/reward of each agency security. A: I've been contemplating this, and decided to do some research. First, 'Double Bottom' and 'Double Top' are not the same. A double bottom pattern occurs when a stock price does a double-bottom shape (closes at a low and then opens at a new low) and this occurs in a downtrend or downtrending market. 'Double Top' occurs when a stock price does a double top shape (closes above a high and opens above a new high) and this occurs in an uptrend or uptrending market. I've always thought there was a lack of good clear descriptions about what all the symbols mean (to me). 'Double Bottom', 'Double Top' and 'Triple Top' are not the only patterns that have a different meaning than the pattern's name. At least, I'm not clear on what's the difference between a 'Triple Top', 'Triple Bottom', or 'Reverse Triple Top/Bottom'. I decided to look through some books on technical analysis and I found some good explanations. Maybe it'll help someone. A very good book is "Technical Analysis of Stock Trends" by J. Welles Wilder. It is an old book, but covers a lot of the basics of technical analysis very well. The website for this book is here. Michael C. Fitzgibbon has a series of books on technical analysis. They cover a number of different aspects of technical analysis. This book in particular explains 'Triple Top' and 'Triple Bottom' (in a slightly different way than the Wilder book): "Technical Analysis of the Financial Markets" by Michael Fitzgibbon. Christopher Rollison has a series of books on technical analysis. His 'Investor's Guide to Technical Analysis' is a popular book on technical analysis. You can see the website for this book here. A: The key words for a 'Triple Bottom' are 'confirmation' and 'countersign' - basically it has to occur after a big price drop. This confirms the
