Also supports online multiplayer battles and special connection to PS Vita. The multiplayer limitation of this game is that two players cannot play the same . If you play an online multiplayer shooter on PS3, the game will automatically sync to PS Vita. The PS3 and PS Vita game allows you to select the same race, character, and weapon. However, if you play a multiplayer shooter on PS Vita with a PS3 connected to it, then you will have the opportunity to choose any character and race. It also means that players can play on a single PS Vita connected to PS3 and choose a race and character not available on PS Vita.
