## **InvertPage Crack+ Download**

InvertPage Product Key is a plugin that will invert the page colors on your current webpage. Great for reading at night. Inverts page colors, NOT just for fun, it can be very easy on the eyes when ambient light is low! If you want to invert a page right away, you can just hit the "Test" button to see it in action! What can InvertPage do for you? With InvertPage enabled, ambient light is low (like reading at night) you can easily read the text on the page! Some of the text colors can change from black to white in certain areas. Features: Key Features Works on any webpage (including blogs and your personal website) Can invert ANY page (not just a blog) Works with any browser (including Chrome/Safari) Works with any OS (including Windows/Mac) Works on all web pages NO Flash needed to invert pages Page Inversion with Javascript If you have any pages on your website that don't load, you can still invert them by adding them to the list of pages in the drop down box. Have More Questions? Feel free to contact me or leave a comment on this page if you have any questions. How to use InvertPage: 1) Select the page you want to invert from the drop down box. 2) Press the "Test" button. If you want to invert a page RIGHT NOW, you don't need to wait! 3) If the color is inverted correctly, you'll see a "READY" or "ERROR" message and a "Check color" button. Clicking the button will reset the colors to normal. 4) Go back and check the page again to see if it's correct. I have over 150 pages in my test list, so it takes a little while for the color to change. What's next? It would be awesome if you could join my group on Facebook called "InvertPage Covers." We're a closed group, but I'd love to have your support as we help people with their webpages. I've tested using InvertPage with this page, and it works great! If you'd like to read more about what InvertPage can do for you, feel free to check out these pages: It's a plugin that allows you to invert the color of any page or group of pages in

## **InvertPage Crack+ Free Download [Win/Mac]**

KEYMACRO supports Command+A to select all. KEYMACRO supports Command+Y to copy selected text (useful when yanking text from another file). KEYMACRO supports Command+Enter to paste clipboard contents into the selected text. KEYMACRO supports Command+Delete to delete text. KEYMACRO is the same as KeyChord 0.2 from the author of Gestures. Thank you! ([www.gesturesforprogramming.com/KeyChord/](http://www.gesturesforprogramming.com/KeyChord/)). KEYMACRO is compatible with KeyChord 0.2.2. (free) 4.2.0.1 2016-04-22 Added performance monitoring to disable the plugin if the results don't seem to have an effect. 4.2.0.0 2016-04-17 NO MORE RECOMMENDATIONS TO ACTIVATE EMBEDDED LICENCES Use the new license.txt file to activate your license to KeyMacro. 4.1.1.0 2016-04-17 This is a hotfix to fix a bug in KeyMacro version 4.1.0 where when you added a webpage to your bookmark, the next time you wanted to use the plugin, it would not find the web page. This is fixed now.

---

4.1.0.1 2016-04-17 Minor bug fix: When opening a PDF/MAI file in a new tab, the plugin would not select the new tab. This is fixed now.

4.1.0.0 2016-04-17 This is a big update! This is the first version of KeyMacro that works in two tabs at the same time. This version is compatible with KeyChord v0.2. This version is compatible with all KeyChord versions.

4.0.1.0 2016-04-17 Minor bug fix: If you tried to close a tab with KeyMacro on it, it would not save the bookmark for that page. This is fixed now.

4.0.0.1 2016-03-17 A few minor bug fixes.

4.0.0.0 2016-03-17 The next version of KeyMacro is compatible with KeyChord v0.2.0

## **What's New in the InvertPage?**

InvertPage is a plugin that will invert the page colors on your current webpage. Great for reading at night.Inverts page colors, NOT just for fun, it can be very easy on the eyes when ambient light is low! # DETAILS# InvertPage is the result of my own obsession with low-light reading. Although it is rather simple to solve, this was a fun problem to tackle. It is mainly a jquery based plugin that I would recommend using on websites such as: - social networks - blogs - news papers - news websites - websites with a long article - websites with a slideshow on the page It is also a great plugin for youtube videos! Let me know if you have any suggestions or ideas on how to make this plugin better. # How to use: Simply paste the "rotate" javascript into your page and the plugin will take care of the rest! The only caveat is

---

that the plugin needs to be loaded after the jquery library (core.js in my case). # WHAT'S NOT INCLUDED?# None of the original source code was included. I know what this does, and it would just be too complicated to include all the required code! If you want to look at the code for this plugin, here it is: # Credits# - The rotation of pages is "borrowed" from this page: - The colors inversion is "borrowed" from this page: # LICENSE# InvertPage is free to use for personal projects!
