"In Sunghwa, everything is about combat. There's no time to use magic, because your character doesn't have mana. Everything has a useful effect, and if you want to get any special item, you have to defeat an enemy. The entire world is like this, and it has a good pacing. The characters are well developed, and it's fun exploring the world. I find myself playing it daily." -Gamescom Review, South Korea "The game is enjoyable and realistic, and the combat is convincing, even though it is a 2D game." -Bang Ai Kran, Editor-in-chief, Famitsu, Japan "This game is really a game I think I can enjoy more than SMT. It has a nice design and the gameplay is surprisingly fun." -Dept of Play, Taiwan "The combat system is the best part of the game. The martial arts skills are so rich that I have no difficulty using any skill. The visual design in this game is also great. The designs are overall simple and have a classy vibe, and the character models are realistic. The game's music is also really good. The battle music is very relaxing to listen to." -Dept of Play, Taiwan "It's a monster-slaying RPG, so I don't even know why I am reading this review. That's just what it is." -Samurai Game (Korean) "The battles are really fun. While there isn't much opportunity to use the other form besides battles, it is a fun game overall." -Famitsu (Japanese) "I don't need to say anything more about this game. It's fun." -Egosoft (Korean) "I'm really having a lot of fun so far. When I compare the story with that of Fire Emblem, the story's a lot darker. It's like, a tragedy is happening in the world, but there's no way of knowing about it. Even when something tragic does happen, there's no solution for it. But my goodness, this game has a good story. I don't feel particularly sad about it." -Dept of Play, Taiwan "You can use the boss in a different way every time, and it's bff6bb2d33

What's new in Elden Ring:

... A new battle royale game is out, and it's all the way from Dubai! DubBros is an original multiplayer experience where 12 players will take on whatever be the ultimate number of players. Play as a drone pilot, bounty hunter, programmer, or an average, non-specialized soldier. Players will also be able to jump into an online co-op or create a private group with up to 12 players. The game will take place at a single location (think of a large concept like a park), with only PvP (people-versus-people) gameplay. Strategy and tactics are more necessary than which DLC weapon you have equipped. DubBros is an all-out war which the world has never seen before. All players will build over the course of numerous matches, using all sorts of gear to adapt and survive. DubBros is already playable for registered users and all new players who have an EA Account. Try before you buy is now available to EA Origin users. Sounds like a great game, but it won't be out until next year. We definitely want to try the game. When it launches (4th of July) feel free to add me if you find me (remember, I am an ea user that you could verify, so please add people who have an ea account) I will happily stick around to play the game IOMAYS Grand Prix 2018 Match Report Advancing through the stages of the IOMAYS Grand Prix had been a successful effort, but Creme and his team looked to improve, set sights on the weekend's last 16, this was the third time going into the break that he had turned a match his way. Creme had been forced to open a gap that simply wasn't there in the previous matches and with the Australians edging closer on each night, any potential for the break in form he was feeling must surely be gone. Look out for the current points leader, Kai Huck, who will look to make a run into the breach, ahead of locals missing out on a top 16 result. The break was thrown away early with the deficit now a whopping seven points, but Creme flashed a rapid start and the lead was open, a few outstanding attacks in the opening turns propelled the IOMAYS Aussie into the lead as the ever-dangerous Mark Hanson shuffled backwards into the back of a startled Matt Lanander!
