What's new in Elden Ring:

this seems like it's made with the Playstation 2 in mind. I've been a huge FF6 fan ever since I played it for the first time on PS2 so obviously this is amazing news for me. Are the other regions getting it? This looks like it was made back when it was. I'm surprised the nes port had been released after such a long time since FF7. He did a well job with the port, I liked using the spinners in battle. there are a couple of more PS1 FF games out, but they haven't been released in Western regions, yet. Also the PS1 FF canonical games (PS1 FF6 remake) haven't been released yet. Also there is a RPG PS1 FF game out, if I'm not mistaken. So there still is quite a bit of unreleased PS1 FF stuff out there. maybe one day, I wouldn't be surprised if they all came out at once...it's a bit like Final Fantasy Tactics. FF6 remake is out, FF7 remake is coming out soon and FF5 remake is currently in development by CyberConnect2 also. I believe that SE is planning to announce it in the nearest future, as they did it for the last Final Fantasy titles. Also, FF7 remake uses some of the assets from the PS2 FF6 remake that's been mentioned above and some more recent assets for ground battles. ...and Final Fantasy 13 is coming out the same week for the 3DS...so, yeah... Thx for the answer. One more stupid question about FF7's PS1 remake. Wasn't it on Dvd? Can't wait to play it.... Thx for the answer. One more stupid question about FF7's PS1 remake. Wasn't it on Dvd? Can't wait to play it.... Did you mean the manga? I don't think it's a game, though. The PSP version was a cooperative mode for the original Final Fantasy 7 Remake version. Thx for the answer. We've Been Wearing You - kfk ===== Tichy I am continually surprised at how a lot of the HN demographic seems to be really into online dating. Maybe it is just me, but I never understood t...dating. Maybe it is just me, but I can't see the point of the whole "dating game", which supposedly leads to better relationships? I might live with my girlfriend for the rest of my life, but I don't see the reason to include her in the "dating game" (you know, there are lots of things to talk about when living together, why also include dating? Even for casual dating, couldn't one just instead go to bars?). For some reason, I always assumed that people who get involved with online dating must be completely clueless and must therefore have some terrible social skills (maybe I did not look hard enough, but I never saw that). ~~~ azaz He/She must have been dating someone casually for a while already. So, he/she chose a person who can be efficient for the whole life (or at least with him/her). She can get rid of her old friend who is too much into the social functions. And now she/he can move on to someone who will be efficient and serious in all the future things. ~~~ revelation That seems like a really horrible idea. How is it that today you move from one person into the next? You have a really hard time even breaking up with a girlfriend. ~~~ azaz Good question. If she/he can't even break the relationships then how can she move forward? ~~~ revelation You can split up with people in a lot of cases without too much hassle. At least in Western-Europe. I would not be surprised if Western dating practices are the result of being pressured into this unpleasant shindig by egos and company expectations. ----- batemanesque great point about the types of people who don't like online dating. i'm not a big fan either, but i at least understand the point of some of it. to me, the worst part of online
