A priest and programmer to the gaming cogs, Eli Normann has provided the third of this game series with exceptional gameplay and high graphics. It has been a challenge creating a good RPG world that does justice to Mad Mage and Orzechon, but Eli and his staff have been implementing numerous different ideas and features, ensuring that the game keeps up the high standards they've set. He holds the philosophy of the company. "With every new title or next development, we set a new tone in what we do. I strongly support the idea of continuing to keep a good and smooth progression. My job in the company is to help shape a smooth environment for creating quality games and this is what I focus on every day." Interview with Eli Normann, from (Shadow of) the Mad Mage: What is the story line of Orzechon, and the Mad Mage? The story of Orzechon is not a very long or complex one. The casting of Orzechon, the preparations and tests of Chaunita seemed to be the same as they were in the MMORPG. The all important betrayal of Chaunita and Tornora together is the start of the conflict which settles true love. The people of Orzechon, from the mainland to the sea, live in a world of chaos, the world rejects the salvation of the gods. Orzechon, however, realizes the mistake of the gods and opens the halls of the gods, but goes deeper into a world of darkness. This is where the madness begins, and the world burns. This is the price of the gods. This is Orzechon. Where to find Eli Normann at the Madmae offices GR, team manager
