The story begins in a small Spanish village, in the middle of a horrible night, when the devout parish priest Rodrigo Alvarez falls ill after the inauguration of a miracle in the church, but the physical and mental problems that he suffers make him accept the exorcism of his daughter, who for a long time has suffered a serious affliction. It is not the first time that a spiritual crisis leaves the soul of the parish priest, who must fight for the safety of his family. After suffering the first exorcism, the doctor of the parish and his family will have to repeat it if the crisis comes again. About The Game: The exorcism is an ancient practice, which still today is widely practiced. This practice is quite different from the practice of séances, the former consists of making attempts to eliminate the ghost that causes the problem, while the latter consists in the discovery of new contacts between the living and the dead. In order to perform the exercise, you will have to use a series of objectives such as the religious artifact of the Bible, candles, some candles and a metal plate which, amongst others, the demons or the evil spirits adhere to in order to become stronger and bigger. We will incarnate an investigator of paranormal events that only with the help of a paranormal activity detector (EMF DETECTOR) and a small oil lamp, we will try to perform an EXORCISM. We will have to look for the utensils and perform the rites necessary to expel the demon while we escape the

jaws of an evil spirit. As we complete the ritual everything will become more and more complicated, and we will discover what really happened there. Will you be able to face it? Features: Short, intense and creepy story. Andalusian ambience of the mid-twentieth century. Innovative mechanics with the EMF detector. AI randomization and searches. Atmospheric effects with infrasounds. Links: Exorcism, The Devil, Ritual Exorcism, Exorcist. Infiltrate The Illuminati Forbidden Vault! Infiltrate The Illuminati Forbidden Vault! is a platform horror-action shooter game in single player and in multiple-player coop mode. Street Psychics is a card-based puzzle game that puts you in the shoes of a typical guardian angel. Your primary goal is to save the player's soul from the clutches of evil spirits who are haunting them. This may sound like a bad joke, but we mean it literally. Soul is being stolen in these cases, and the demonic forces must be stopped at all costs. As you progress through the game, you will have to infiltrate the danger zone and take part in devious activities in order to save the player's life from the psychic virus. You need to rescue the souls of those who are being possessed and get the job done in time. If you want to find out more about Street Psychics and its gameplay, we recommend you to watch the video presentation by IGN. Walkthrough Street Psychics: Since street psychics are quite popular in modern society, you may find it useful to get to know how they work. Of course, psychics are really not living entities like us. They are simply another form of spirit that inhabits the physical world. That means they are as subject to all kinds of laws as we are. The only difference is that spirits never expire. They always possess the energy of life, but it's kind of up to you whether you think of them as animate or inanimate. The latter are actually spirits who appear to be living on Earth. They usually work in groups to accomplish a specific task. These groups don't interact with humans and possess a certain charisma. They are focused on achieving goals and usually do so in a secretive manner. Street psychics rely on the use of supernatural powers. They aren't stupid and they realize that they cannot steal the souls of living people. However, they have developed many tools to take souls and they can use them to help the living. Unfortunately, even the most powerful spirits can't beat the souls of dead people. For a genuine psychic to make their bones, they need to be really evil. They steal souls from the living in order to make things happen, usually in the form of accidental deaths or accidents. These events will trigger a loss of the soul of a human being. The best way to save the soul is to locate the target before time runs out. The following video gives you an excellent view of what kind of powers you will need to have in order to make the most out of street psychics: So, once you have a feel for how these entities are actually operating, you can start looking

If you could talk to one kpopstar, who would it be and what would you say? I won't tell who it is just yet Trust me. It won't be names in HR Assuming that you still like the artist, get them on camera! I would definitely like to speak to, U-know-who Why is he not in a band? I just love how he always smiles when he is on camera Usseesss I think he's got a pretty big job, I can't imagine how much time he spends on their photographer. That's not what kpopstars are here for anyway. Unless, that is, you follow them on Insta The year was... August? It seemed like it was just a few days ago. Especially since I had a vacation coming up, and was going to take the first couple weeks off from work. Not really sure why, but for some reason, she made a special trip to find me. I had been sitting in the bathroom for a good long time, trying to figure out a receipt for a cheap sunglasses I had to wear to the holiday party. I heard the door open and figured someone visiting me in the master bathroom. "Hey Sarah, um, " It was Heather. Man, somehow, she and I had been making small talk, all the while I could never see her face for the crap of getting up the stairs She knew I was in there, but for whatever reason, she thought she could still make conversation with me, like she wasn't pouring sweat. "So, what are you looking for in those glasses?" "Well, I gotta get sunglasses for a holiday party. I'll be working in IMS, and then out in the offices over the holidays, so I need something to..." Heather trailed off. "Uhhhhh, why

should you get some for a holiday party? I think you're not working." I replied. I'm not sure if I was trying to be sarcastic, or if I was just being crude. I've never really gotten the 'I have to bring a gift when I visit my boss' thing

There will always be tough situations in life and crane games are no exception. You will have to work hard and be careful. So we've decided to create a mobile game which will allow you to enjoy crane games right on the go. The first crane games you have seen were played on arcade machines and had a fixed crane and a crane operator. However, in our game, you will have a choice of the machine: * Drive a crane car. * A crane on a cart. * A crane on a locomotive. * A crane on a hovercraft. * A crane on a Segway. * A crane on a mobile crane. In each round, you will have to set the container on the indicated place to complete the next round. You will be able to choose the mode you will play in and the special feature. From the crane car driver to a top-model crane on a hovercraft, in crane simulator you will find every mode and variety. We have the following modes and features: 1) Crane Operating: Put the container on the places you have been given. You will have 2 minutes to complete each round. Collect stars to unlock the next round. As you advance through the modes, you will have a greater challenge. 2) Crane Operating - Hovercraft (available for any crane models): It's a hovercraft! You'll have to put the container on the places you have been given within 2 minutes. You won't have to worry about driving, in this game you will control a crane hovering a hundred meters above the water. If you put the container on the right place, you'll get to the next round. 3) Crane Operating - Containment Unit: You'll operate a crane with a containment unit. This mode is suitable for operators who didn't have time to test how long it would take to get to the next round. In this mode, you'll have to put the container on the locations given. 4) Crane Operating - Electric Tower: Operate an electric tower crane. You'll have to put the container on the places you've been given within 1 minute. 5) Crane Operating - Covered Elevator: Place the container on the staircases you've been given. You'll have to control a crane to put the container on the indicated places within 1 minute. During this time, the containers will be controlled
