place in the Kingdom of Pansâl'. The player controls a newly created race of humans called the Aplestians. They are a hybrid of humans and dragons, which include both their blonde and dark sides. You play as the hero, a human/dragon that leads the charge of a brave force with one goal: save the Kingdom of Pansâl' and stop the invasion of the dragons. Use magic to transform into a blue dragon and take to the skies. Enemies are reduced to your stomping style. During combat, the player runs away or pursues the enemy while healing himself at the same time. You must watch out for the combination attacks of the enemy, otherwise you are in for a nasty surprise! Each level of the game contains the maximum number of enemies. The fights are very dynamic and the enemies react with a dynamic combat system. Enemies are controlled with two attack statuses. The first status: ready and if the enemy attacks you, it will automatically attack. The second status: at full health and it will attack whenever you approach it. The first status is activated by the enemy. The second status is activated by the player. As the game progresses, you can increase the number of enemies you attack. Equip 15 enemies and the statuses will be extended for each attack. During combat, there are three phases: The Guard Phase, the Attack Phase and the Recovery Phase. The Guard Phase is where you fight a lot of enemies. The Attack Phase is for you and the enemies. Heals are performed at certain points. The Recovery Phase is for you. Magic spells are used to heal and execute attacks. It is also possible to use special attacks from the weapon or weapon specialties. It is wise to switch weapon or weapon

specialties when you encounter a difficult situation. During the Guard Phase, you can burn enemies with your fire-balls if you have enough health. Use the arrows keys to move and the mouse to attack.
