Based on the RPG maker program that has "RPG Maker MV" as its latest model. RPG Maker MV has never been released in Japan. More PostsThe present invention relates to a scanning optical system, and more particularly to a scanning optical system in which incident light is subjected to wavelength conversion by a non-linear optical crystal and the light to be used for exposure is subjected to scanning by a deflector. Conventionally known are a system of simultaneously exposing an original and a photosensitive material to form an image, a system of optically scanning an original and a photosensitive material with high accuracy, and a system of exposing only a photosensitive material to form an image. The latter system is recently attracting attention since the photosensitive material does not have to be exposed to an excessive amount of light. For the system of exposing only the photosensitive material to form an image, an image formation apparatus employing a beam scanning optical system is being developed in recent years. FIGS. 1A and 1B illustrate a scanning optical system of an image formation apparatus using a deflector. In FIGS. 1A and 1B, an original 211, an illumination system 213, a half-mirror 214, a non-linear optical crystal 215, a deflector 216, and a photosensitive material 217 are arranged in this order from the side of a scanning start point. Deflectors 216a and 216b are disposed between the non-linear optical crystal 215 and the photosensitive material 217. An optical beam emitted from the illumination system 213 is deflected by the deflector 216a, and is then subjected to wavelength conversion by the non-linear optical crystal 215. The light subjected to wavelength conversion is reflected by the deflector 216b, passes through the non-linear optical crystal 215, is deflected by the deflector 216a, passes through the non-linear optical crystal 215 again, and is then radiated onto the photosensitive material 217. The light reflected by the original 211 passes through the non-linear optical crystal 215 twice. In FIGS. 1A and 1B, a scanning optical system is formed by a combination of the deflectors 216a and 216b and the non-linear optical crystal 215. In the image formation apparatus with the above-described scanning optical system, in order to increase throughput, the time taken to scan the photosensitive material 217 should be reduced. From this point of view, the number of times the optical beam from the illumination system 213 is subjected to wavelength conversion by the

----- This is a visual novel about the decision that the people of Okinawa will make on July 19th, 1917 (that is 1 year before the Great War), who will they support: the left or the right. In 2017 Okinawa was established as an independent State, but the country was plagued by civil war between the left and right. And all of this cost the lives of tens of thousands of people. At the end of the Civil War the left was triumphant and was in a power majority. Now the people of Okinawa are waiting for change. "As I wrote in my little book, we the people of Okinawa have freedom of speech and, I think, the right to free thinking. We are a tolerant people, we do not force anyone to believe the same things as we do." - Shizuka Kunitake, Marquis of Okinawa and Emperor ----- Prologue "Keep quiet!" - Shizuka Kunitake, Marquis of Okinawa and Emperor. "Ah, but I must speak." - Etorō, Head of Party A. "No, no, I must speak!" - Ason, Head of Party B. "Enough! We must place the interests of the people first, the Party first!" - Shizuka Kunitake, Marquis of Okinawa and Emperor "The people must first be supported, we must give the people the tools of production, we must build them a strong and modern economy, for only a strong economy can strengthen the nation!" - Shizuka Kunitake, Marquis of Okinawa and Emperor "But what about freedom? I only want to think!" - Minato, Head of Party C. "Freedom!" - Ason, Head of Party B. "Freedom!" - Minato, Head of Party C. "And I am sure that most of you will be in favour of Freedom!" - Ason, Head of Party B. "You have no right to oppress us people!" - Minato, Head of Party C. "Freedom!" - Etorō, Head of Party A.
