=====

===== Don't do anything. Don't install it. It's working. Do nothing. Press Ctrl+Alt+Del. Wait while your computer reboots. If this doesn't work, please try to use Renamer to rename any file. What's more, your anti-virus program should be turned off. Click Next. You will see a Welcome window. Click Next. Continue the installation as you normally would. Before using, please note the license agreement,

---

and follow the appropriate steps. That's it. Enjoy! . . . . .
