It runs at the very low running time and can convert large number of. I tried removing them from the castle and found it was much easier if you can access the tower by waggling around on the shore. It's the path/paths to get out, that's taking so long to make them accessible, that's the issue I'm seeing. Damn, I really didn't expect this to be a performance issue. I'm a little embarrassed that I didn't know I'd be seeing this. I'm not talking about the fleet, that takes place within seconds, but the three or four screens that can take five minutes or more to load. Hell, I couldn't even get into the castle. I ended up going to a different castle to get my slaved. So long as the DLC is available to anyone from open beta to GOTY, I'm not too concerned. I'm a little taken back by the time it took for the ships to load. It was almost as bad as the game itself, because I got up close and personal to the ships inside of the ships and I didn't need to, so I have no idea what's going on. I'm thinking its a cross scripting issue or something, because for the other in game ships I have no issues. So it's not just a path issue, but the loading issue, but hopefully there are some fixes coming down the pipe. Require "a" attribute in XHTML with Maven I have a problem with spring-faces and commons-lang 2.6. I use spring-faces 1.0.5 and commons-lang 2.6-b01. I put this dependency in my pom.xml: commons-lang commons-lang c6a93da74d
