November 13, 2561 BC - 4) Select game target at the top -> OTWD-Wind64-Shipping.exe. 5) Click Embed. You will now find two text files in the Steam folder: .NETFx4.0.dll and .NETFx4.0.DLL. 6) Run the .NETFx4.0.DLL file. 7) Run the .NETFx4.0.exe file. 8) Insert the disk with OTWD-Wind64-Shipping.exe. 9) Start the mission. 10) Press F1. 11) Start the mission. The mission will complete successfully. (Note: In some cases, the game freezes before the start of the mission. This is a bug in the hlmd.exe file due to a bug in the game. If the game freezes, restart Steam and start another mission. The game will continue to work normally). November 12, 2561 BC - 5) Complete the mission.

ARPG's are a genre that has only grown in popularity since the West was invaded by monsters. One of the latest ARPG's that has taken the genre by storm is BattleBlock Theater and while it might not be as popular or well known as Diablo or League of Legends, it's got one heck of a gameplay style. Thankfully a fan of the genre was able to hold out a good portion of the game for less than a dollar on sale and had the foresight to scan the game in. As a result, I'm able to gain access to the game files and build a high quality tribute to the series. It's been a long road and I c6a93da74d
