Ac Iv Multiplayer ##BEST## Crack Fix

i have an account and password but after i selected it in the tutorial and then tried to start the game it said "the ubisoft server is not available at this time. try again later." i can play as the tutorial without an issue. anyone have any idea how to fix this? i have the game up and running. i have a problem though. when i select the "continue" button in the main menu it says that the server is loading. it then asks for the username and password. after i input the username and password, it just sits there. it doesn't crash, but it's like the program just freezes. i can quit the game or hit the home button and then the main menu will come up. i can go back to the main menu again and it does the same thing. anybody have any idea what i can do? a business owner i know owes $16,000 a week in salaries. his director goes to his boss and asks him to pay them. the director is an ethical guy, but his boss is not. he pays him $16,000 weekly. in two days, he has paid his boss for the current week, but he is two days short. he has to pay them at midnight tonight. he does not have the money to pay them. his boss appears angry and tells him to go to his office and take a pay cut. in one hour, he must pay them. he has no money to give them. his boss then tells him that for every seven days, he will double his pay. if he pays them after seven days, he will be fired. this boss and the director will never be seen again. the director knows he will not be able to pay them in time, so he comes up with a plan. he goes to the boss and asks for one more week's pay. he then goes to his bank manager and borrows the money for a week. at midnight tonight, he goes to his boss and pays them. at the end of the week, the boss doubles his pay. he now has $32,000 to pay his boss. he can now stop worrying about them paying him.
