GTA 5 Grand Theft Auto V //FREE\\ Crack Only V2

The best moments in the game are those which make you feel as if you're experiencing a genuine crime. Finding a hidden Christmas present at a crime scene or avoiding a gang member on the phone during the middle of a heist are great. They're some of the series' best examples of Grand Theft Auto's intuitive and immersive storytelling. Some are just as funny as you'd expect, like the time I sneaked a cigarette in the middle of a hurricane to evade police. Others show the things I loved most about GTA as a whole. By the time you're done, you'll want to go to jail just to sleep in the cell you spent that night in. A complete tactical and action game with enough replay value to keep you busy for hundreds of hours, Grand Theft Auto V is an astounding achievement in game design and one of the true standouts in this console generation. Rockstar has never set such high standards in storytelling, and there have only been three previous games (Black and White, Vice City, San Andreas) that actually set the bar higher in many ways. Even the all-time greatest games (like Midnight Club 3) never set the kind of narrative expectations Grand Theft Auto has. The city of Liberty, like the game, has more depth than Super Mario Bros. on NES, and it's easy to see the resonance and ambition that have gone into its creation. It can hardly be overstated how amazing this game is. It changes almost everything about Grand Theft Auto, from mission structure to character choices to the entire storytelling model. It's a leap forward, and it makes you realize what the series has been missing for several years. There's some plaudits to go around, and it's certainly not confined to the genre - it's a game that can compete with any blockbuster movie, and that doesn't come easy. It was worth the wait, and the hype, and it makes the best version of Grand Theft Auto yet.
