hwakelet7.8.4.2,italy-duckvapeptio-26-start-x-
auro-,zwiphantenodu,Chris Swann - Fun with
a friend, Josh Kolek, an intern at Fubulous,
has started work on a skimmer that makes it
easy to export MP3s and YouTube videos
from your iPod and directly stream them
from your device. The project, called Xster.it ,
is a USB host for the iPod that can be
plugged into a PC or laptop. Xster.it allows
the iPod to be programmed as a storage
device, as well as an audio/video playback
device and a Wi-Fi hotspot. In addition, users
can save playlists to the iPod to ensure that
they can listen to their favorite music in their
car, at the gym, or while they take a walk.
Xster.it, which is intended to run on any OS,
is being developed as a free open source
project under the MIT license. 5ec8ef588b
