THEN FEEL FREE TO DOWNLOAD OUR FOUNDATION SHIFT COURSE! Our foundation shift course is designed to build your school subjects foundation for your SPM subject. It is your best option to get you ready for what's coming in your SPM later this year. Now that you have your facts right, we now present you with a comprehensive revision guide. This is composed of the SPM curriculum, the total number of questions to be answered for each topic, the general points to note for each question for a clear understanding and the SPM free online questions (standard and customized) that you can check against to know whether you have mastered the said topic (in some cases, there might be more than one question in a topic). The format might be a little different from those of you who are taking the SPM Sejarah paper in the past, but we made it as simple as possible so that all you have to do is revise what we have prepared and memorize what you have been shown in the book. We even go as far as dividing the textbook materials into chapters to make your revision both efficient and convenient. Plus, we provide your textbooks so you are not spending unnecessary time leafing through old books looking for old topics. However, you need to make a note that we do not guarantee you to be able to recall what you have read already and in all the areas where you are not sure, we provide the answers right there so you get to know the answer. If you feel your time is being wasted, we are even ready to give a refund to those who have followed our plan to the end but they just cannot solve the SPM Sejarah Paper. 5ec8ef588b
