Trying to review a table called'spot' in mysql. Trying to review a table called'spot' in mysql. Trying to review a table called'spot' in mysql. Trying to review a table called'spot' in mysql. I need suggestions. I have almost 1 million records in this'spot' table. I need it reviewed. I don't know how. Please suggest. I don't want to be downgraded. Is there anyway? Please suggest. The records could be there for over 10 years, but a review needs to be done. I have to maintain the table. I just need someone to take a look and get it done. Please help. Title: Fine Tuning MySQL Query Performance By: Connexions Duma Date: 8 January 2016 Descript: Presenting various efforts that can improve the performance of MySQL queries. # The client now reports all three records as read: 1. The client now reports all three records as read: 1. The client now reports all three records as read: 1. The client now reports all three records as read: 1. The client now reports
