DesterradoscronicasdeldesarraigoalfredomolanopdfdownloadQ: Saving into one list I need your help.

I need to write an app that will bring all the contacts from the phone, put them into one list, then create a folder in the sd card, and then i need to add all my photos into that same folder using the root to be stored in the photos folder, and then add it to the list. I have started with the photos and adding them to the list. My problem is that when i put my photos into the list, it doesn't seem to add them all. When it is done, it will have two or more pictures, and i need it to have only one. Please help me. Here is my code:

```
private static final String[] PROJECTION = new String[] {
ContactsContract.CommonDataKinds.Phone.NUMBER,
ContactsContract.CommonDataKinds.Phone.TYPE,
ContactsContract.Contacts.DISPLAY_NAME_PRIMARY,
ContactsContract.CommonDataKinds.Phone.LABEL, };
@Override public void onCreate(Bundle
savedInstanceState) { super.onCreate(savedInstanceState); setContentView(R.layout.main); Cursor
phones = getContentResolver().query (ContactsContract.CommonDataKinds.Phone.CONTENT_URI,
PROJECTION, null, null, null); while (phones.moveToNext()) { String name =
phones.getString(phones.getColumnIndex(ContactsContract
```
