"ABLE2EXTRA PTRACKER PRO" is one of the applications in the "ABLE2EXTRA" family, which is the most common used application. This application is recognized by all the users that have the ability to recover the deleted files. ABLE2EXTRA PTRACKER PRO allows you to recover the TRACKED.pst file to your PC. PTRACKER PRO allows you to recover the deleted items that are deleted by using the standard processes for the deletion of files, except for the standard deletion method for files on the internal SSD, using the reference of the operating system to delete the file. Under most circumstances, the deleted items of a specific group of files are deleted together, which makes it difficult to perform the recovery of only one or several of the deleted items. Moreover, PTRACKER PRO allows the recovery of deleted items with large capacities, in the main part of the free hard disk or on the optical disks, even on the firmware that is of the most recent versions. You can try the trial version (1 - week), and if you like it, you can install the full version for free for a month. If you like it, you can continue to use the free version, with limited restrictions and with a fixed expiration date. About this application
